Dearest Mother,

I received your letter yesterday which was written on April 17th.

We have been fairly busy lately so I can't write much the time I expected to have a slack time at the office this morning to write, but two or three cables came in & we were pretty busy again.

The weather here is distinctly colder now. There is quite a nip in the air in the mornings & evenings though it's just nicely warm in the afternoon.

I was interested to hear about Gladys having to take another Certif. if she came out etc. I know she wouldn't care for the back-blocks much. Perhaps she could come on the exchange of teachers that in a few years time when she's saved up some more.

I am sending some pencil scrawl which will give you all the news - there's not much. I didn't buy the skins over the phone. The man said our prices were much too low - they always start like that.

When is the Hockey Club coming home again coming. I shall be surprised if it does materialize!!

Give my love to Auntie Nell & tell her I'll write soon. The morning I received another copy of the "Sketch" postmarked Woking. Who is sending them? I can't recognise the writing. It's very nice if whoever it is.
